## Did you know?

### A man's best friend...

Did you know that dogs can smell your feelings?

Dogs can pick up on subtle changes in your scent, which can help him figure out how you are feeling, such as by smelling your perspiration when you become nervous or fearful.

### Mmm, can I fit in?...

Did you know that a cat uses its whiskers as feelers to determine if a space is too small to squeeze through?

Also, cats love to sleep. A fifteen-year-old cat has probably spent ten years of its life sleeping.

Clearly, animals know more than we think,  
and think a great deal more than we know.

# Did you know?

Pandas don't hibernate.

When winter approaches, they head lower down their mountain homes to warmer temperatures, where they continue to chomp away on bamboo

There are more kangaroos than humans in Australia.

It is estimated that more than 50 million kangaroos live there. They are Australia's national symbol and appear on postage stamps, coins, and airplanes.

Koalas are even more lazy than cats.

Koalas don't have much energy and, when not feasting on leaves, they spend their time dozing in the branches. Believe it or not, they can sleep for up to 18 hours a day!
